

# Vincent Fraillon

AI APPLICATIONS | DATA & SOFTWARE ENGINEERING | LEAN DELIVERY

Paris, France · vincent@q4o.com · linkedin.com/in/vincent-fraillon · q4o.com

Senior data and AI engineer with 8+ years building production systems and leading delivery. I combine Python, C++, SQL and applied AI with product framing, prompt design, team leadership and Lean methods to turn complex needs into useful applications.

## EXPERIENCE

### Founder & Principal Engineer | q4o

Jun 2026–Present

Building a Paris data and AI studio focused on production AI applications, assistants, RAG and reliable data platforms, with senior engineering and Lean delivery.

### VP Data Engineering | Isskar

Oct 2024–Mar 2026

Led data engineering teams and supported project scoping and presales, combining technical direction with team building and delivery methodology.

### Lead Data Engineer & Data Scientist | Theodo Data & AI (ex-Sicara)

Sep 2022–May 2024

Led data and AI delivery for enterprise clients, from architecture and implementation to team collaboration and production rollout.

## SELECTED AI & DATA WORK

### GAMBIT / BNP Paribas — AI-assisted wealth advisory

Whisper + Mistral Large 2 pipeline to transcribe and summarize client meetings; modular, containerized Azure Kubernetes deployment, including on-prem environments.

### AFDAS — AI job-market intelligence

LLM pipeline maintaining 70+ role descriptions, with an LLM-as-judge quality loop; expanded from telecom to culture, cinema and other sectors.

### Carrefour Links — supplier insights at scale

Led data infrastructure and supplier-facing insights on Carrefour Europe's retail lake: 1B+ rows/day with dbt, BigQuery and Airflow, plus semantic search.

## CORE SKILLS

**AI applications:** LLMs, RAG, prompt design, applied ML, evaluation & integration

**Engineering:** Python, C++, SQL, APIs, data modeling, distributed data platforms

**Leadership:** technical direction, team building, project framing, Lean methodology, client delivery

## TECHNOLOGY

Python · C++ · SQL · Rust · Java · OpenAI · LLMs · RAG · Azure · GCP · Kubernetes · Docker · Terraform · Snowflake · Databricks · BigQuery · dbt · Airflow · Spark · MLflow · TensorFlow · CI/CD

## EDUCATION & CERTIFICATIONS

MSc Engineering, Intelligent Systems & Machine Learning — Sorbonne Université (2017) | Google Cloud Professional Data Engineer (2023) | Snowflake SnowPro Core (2022) | NVIDIA Large-Scale RAG Pipelines (2025)
